Letter of Recommendation

Dear Sirs,

We herewith confirm that SC CRIOMECA SA Galati has performed for our Air Separation Plant AFPLN 7000 Type Calarasi-Romania the following activities:

- I. Execution of Civil Works, as General Contractor, together with Companies: CONTRUST Calarasi, GRIFON Braila, AGEVIM Galati, etc.*
- II. Execution of Mechanical Works: carbon steel and stainless steel piping materials, according to European Directive PED 97/23/EC.*
- III. Execution of Plant Electrical Installation.*

We can also mention the execution of "Mechanical Installation of GNT 330" for Tenaris Zalau-Romania, which is consisting of cryogenic installation for oxygen.

The mentioned works has been performed according to stipulation from our designs, standards and technical prescriptions and with respect of contractual terms.

The quality and the performance have been according to European Directive PED. As a result, the mentioned Plants have obtained Mark CE.

SC CRIOMECA SA has a good knowledge of International Standards and Regulations and it also has the necessary experience to fulfill the most restrictive requirements.
